

Communications

Directions:

1. Your instructor will divide the class into groups of two.
2. Working with your partner, discuss the effective use of both verbal and nonverbal communications in agriculture communications.
3. Create a list of suggested topics of communication which would be appropriate for an agribusiness environment as well as in an informal setting. Groups should have a minimum of 10 for each type of communication.
4. Compare and contrast the two types in table form, noting if the communication is verbal or non-verbal.
5. Take note of your partners verbal and nonverbal communication techniques during your discussion and write them down on a sheet of paper after you have completed your conversation.
6. Participate in a class discussion to share your results with the class.
